De KITE-magie

De (digitale) wereld in zijn volledigheid ontwerpen

Technologie = menselijk

The background image shows two men in a dark room, looking at a large digital screen. The screen displays a software interface with various icons and a large blue abstract shape. The men are standing in front of the screen, and one is pointing at it. The overall atmosphere is futuristic and collaborative.

Koppelen aan wat er speelt binnen het onderwijs

A group of children are gathered around a wooden table, engaged in a hands-on learning activity. In the foreground, a girl with blonde hair, wearing a white sweatshirt with a cartoon rabbit pattern, is focused on cutting a piece of red and white patterned fabric with black-handled scissors. To her left, another girl with blonde hair and glasses, wearing a light blue shirt, is also working with scissors. In the background, a boy in a dark shirt is visible, and to the right, a girl in a teal shirt with 'Lucky Girl' written on it is typing on a laptop. The table is cluttered with various materials: cardboard boxes, green and yellow paper scraps, a purple water bottle with 'all up' written on it, a green container, and a laptop displaying a block-based programming interface. The scene is brightly lit, suggesting an indoor classroom or workshop environment.

Thematisch werken

Het geeft context aan leren

A group of four young people are interacting with a digital art installation. They are holding thin, dark, branch-like structures that have small, glowing digital elements attached to them. The background is dark, and the lighting is focused on the students and the installation. The students are smiling and appear to be engaged in the activity. One student is wearing a red sweatshirt with a 'Coast' logo, and another is wearing a purple sweatshirt. The overall atmosphere is one of collaborative learning and creative exploration.

ArtTechTour

Multidisciplinaire beleving van kunst, technologie en wereld

The background of the image shows a blurred scene of people in a gallery or museum setting. A smartphone is mounted on a stand in the center, displaying a clear image of an art gallery with various paintings on the walls. The title 'ArtTechTour' is written in large, bold, white sans-serif font across the middle of the image, partially overlapping the phone and the background.

ArtTechTour

Multidisciplinaire beleving van kunst, technologie en wereld

The background image is a vibrant, abstract scene with a mix of purple, blue, and red lighting. It features geometric shapes, possibly paper or fabric, hanging from above, and a person's silhouette in the foreground. The overall atmosphere is futuristic and artistic.

A high-angle, top-down photograph of a young child with dark, curly hair, wearing a light-colored, patterned dress. The child is sitting on a grey, textured pavement and is focused on painting a face on a white piece of paper. The face is drawn with thick, colorful strokes of paint, featuring large eyes with blue and red pupils, a wide red smile, and a yellow nose. The child's hands are visible, holding the paper steady. In the bottom left corner, a small, open watercolor palette with various colors is resting on a dark wooden surface. The overall scene is bright and sunny, suggesting an outdoor setting.

The background is a stylized illustration of 'De Kleine Prins' (The Little Prince) by Antoine de Saint-Exupéry. It features a blue sky with a large yellow sun on the left and several yellow stars. The Little Prince, with his characteristic spiky blonde hair and green tunic, is standing on a grey, rocky planet. The title 'De Kleine Prins' is written in large, white, sans-serif font across the center.

A top-down view of a light-colored table covered with various children's drawings and electronic components. The drawings include a house, a dinosaur, a rainbow, a sun, and abstract shapes. Some drawings are connected to small electronic modules like a 'KITE' board and a '7808' voltage regulator using jumper wires. The scene suggests a hands-on learning activity where children are combining art with basic electronics.
